Subject: Do not preempt state do not call laws

MAR 2 4 2003

Federal Communications Commission
Office of Secretary

Dear Chairman Powell:

ORIGINAL

I am writing to let you know that Indiana's state do-notcall list seems to be extremely effective in reducing the number of unsolicited telemarketing calls I receive. If the FCC determines that a national do-not-call list is desirable, I would have no quarrel with that. However, please make sure the federal law does not preempt state law. First, states rights are important. Second, and more importantly, we know Indiana's law is working.

Thank you for your consideration

Doug Masson
Monticello, Indiana
